CSR Initiative Questions

🎙️ **Voice Responses – CSR (Graminno Initiative)**

1. What is Graminno?

“Graminno is Accion Labs’ corporate social responsibility initiative focused on empowering rural communities through sustainable agriculture, knowledge sharing, and long-term partnerships.”

2. How did Graminno start?

“The initiative began by directly engaging with rural communities, understanding their needs, and co-creating solutions instead of applying predefined approaches.”

3. What is the main focus of the initiative?

“Graminno focuses on building sustainable livelihoods by combining agricultural expertise, community participation, and long-term development strategies.”

4. How does Accion support farmers?

“Accion Labs partners with agricultural experts to provide farmers with training, scientific guidance, and support in sustainable and organic farming practices.”

5. Why was turmeric chosen?

“Turmeric was selected as a sustainable and high-value crop based on soil suitability, strong market demand, and its potential to provide stable income for farmers.”

6. What impact has Graminno created?

“The initiative has improved income opportunities, enhanced farming skills, and encouraged active participation from the community, including women empowerment.”

7. What are the key achievements?

“A major milestone was the successful harvest of nearly five tons of organic turmeric, showcasing the impact of sustainable farming practices.”

8. What is the long-term vision?

“Graminno aims to create a scalable model for rural development by strengthening agriculture, empowering communities, and building sustainable ecosystems.”
